The Community for Academic Progress (CAP) Program is an exciting program designed to allow students to enroll in grouped or paired courses that share common themes, activities, and assignments. Since the courses are linked, students take these classes as a group, allowing faculty and students to work and learn together. Whether you are transitioning from high school or are a continuing college student, CAP has a learning community for you! While college may seem overwhelming, CAP addresses your needs in an environment of caring faculty, staff, and administrators. In addition to learning communities, CAP offers math courses that are only open to CAP students.

The CAP Program Offers:
- An academic program based on your English placement with grouped courses in one convenient schedule;
- “Guaranteed” registration so that enrolling for college is not difficult;
- A personal orientation to introduce you to the program and to the college;
- Counselors who assist with your Student Educational Plan (SEP) and provide personal counseling and career development;
- Access to technology, both in and out of the classroom;
- Coordinated sessions with Supplemental Instructional (SI) Leaders who will provide study sessions demonstrating effective learning and study strategies;
- Field trip opportunities to CSUs, UCs, and private universities that give glimpses of university life;

Important Steps to Take Before Applying:
1. If you have not completed an RCCD application, please complete it online at www.rcc.edu;
2. If you have not taken the English, Reading and Math placement tests, please call the Assessment Center at 951-222-8451 for available testing hours;
3. If you have not completed the RCCD Orientation and the First Semester Educational Plan, please log on to WebAdvisor and complete them;

You will need your RCCD student ID number, English and Reading placement scores for fall 2015, and clearance to register for classes (no academic and/or financial holds on your account). Please review the CAP schedule in advance to determine which learning community you would like to be placed into. This will be based on your English placement and eligibility for courses in the community.

If you have not completed the above steps, you will NOT be able to apply for the CAP Program. The CAP Program application period ends June 22, 2015.

Steps to Apply: Fall 2015
1. To find out what Learning Community you are eligible for, complete the Eligibility Checker on the CAP website
   - Go to the RCC CAP website: http://www.rcc.edu/AcademicSupport/Pages/CAP.aspx;
   - Under the CAP links located on the far right side of the page, click on the Community for Academic Progress (CAP) Eligibility Checker link;
   - Follow the Eligibility Checker instructions, print the learning communities you are eligible for and submit;
2. Complete the CAP Application on your WebAdvisor
   - Log into WebAdvisor and choose “CAP Program Application Form” on the student menu under “Supplemental Applications”;
   - Select “Riverside City College” from the drop down box and click submit;
   - Select the CAP learning community you are applying for and click submit;
   - Print your confirmation page. It is in your best interest to print the CAP Schedule to reference the name of the learning community you are applying for;
3. If you are applying after June 22, please call 951-328-3661, email us at CAP@rcc.edu or come into the CAP office located in MLK office 213.

All CAP communities are first-come, first-serve. Students must be eligible to enroll in all courses linked to the community. CAP math courses are first-come, first-serve and are only available to students who have been accepted in a CAP learning community. Students who are eligible and approved to participate in the CAP Program will receive an email with additional instructions. If you have questions, please contact us by phone at 951-328-3661, email us at CAP@rcc.edu or visit us in the CAP office located in Martin Luther King Learning Center on the 2nd floor in Room 213.

For more information, please e-mail us at CAP@rcc.edu
or call the CAP Office at 951-328-3661.
You can also visit us at www.rcc.edu/services/support/cap/index.cfm.

TRANSFER LEARNING COMMUNITIES
These learning communities help fulfill requirements for CSU and/or UC. Check the catalog or with a counselor for more details.

Eating and Drinking Pop Culture (EDPC)

The Simpsons is the longest continuously running series on television today. One of the reasons for its success is that it is a living document of our popular culture. In a single episode, there are references and allusions to television shows, movies, music, sports, and consumer products. In the Eating and Drinking Pop Culture learning community you will explore the elements and effects of our current media driven world. Just think, you will be reading and writing about topics and themes that surround you. All you have to do is enroll and open your eyes.

IGETC = Intersegmental General Education Transfer Curriculum

FALL 2015

IGETC is a guide to choosing your classes that can save you time and money – an even better guide is a Riverside City College counselor who will work with you to develop an education plan. Your personalized plan will include general education course choices and the courses you’ll need to prepare for your major at your chosen university. In some cases, you can use one course to count for two requirements, saving you time and money.

RCCD General Education Program Student Learning Outcomes

The RCCD General Education program prepares students to be able to demonstrate an understanding of how knowledge is discovered and constructed in the natural sciences, the social and behavioral sciences, the humanities, and language and rationality. Students will understand the methods of inquiry that underlie the search for knowledge in these fields. In addition, they will gain demonstrable skills in four broad interdisciplinary areas:

Critical Thinking
Students will be able to demonstrate higher-order thinking skills about issues, problems, and explanations for which multiple solutions are possible. Students will be able to explore problems and, where possible, solve them. Students will be able to develop, test, and evaluate rival hypotheses. Students will be able to construct sound arguments and evaluate the arguments of others.

Information Competency & Technology Literacy
Students will be able to use technology to locate, organize, and evaluate information. They will be able to locate relevant information, judge the reliability of sources, and evaluate the evidence contained in those sources as they construct arguments, make decisions, and solve problems.

Communication
Students will be able to communicate effectively in diverse situations. They will be able to create, express, and interpret meaning in oral, visual, and written forms. They will also be able to demonstrate quantitative literacy and the ability to use graphical, symbolic, and numerical methods to analyze, organize, and interpret data.

Self-Development & Global Awareness
Students will be able to develop goals and devise strategies for personal development and well-being. They will be able to demonstrate what it means to be an ethical human being and an effective citizen in their awareness of diversity and various cultural viewpoints.

IGETC = Intersegmental General Education Transfer Curriculum

FALL 2015

IGETC is a guide to choosing your classes that can save you time and money – an even better guide is a Riverside City College counselor who will work with you to develop an education plan. Your personalized plan will include general education course choices and the courses you’ll need to prepare for your major at your chosen university. In some cases, you can use one course to count for two requirements, saving you time and money.

RCCD General Education Program Student Learning Outcomes

The RCCD General Education program prepares students to be able to demonstrate an understanding of how knowledge is discovered and constructed in the natural sciences, the social and behavioral sciences, the humanities, and language and rationality. Students will understand the methods of inquiry that underlie the search for knowledge in these fields. In addition, they will gain demonstrable skills in four broad interdisciplinary areas:

• Critical Thinking
Students will be able to demonstrate higher-order thinking skills about issues, problems, and explanations for which multiple solutions are possible. Students will be able to explore problems and, where possible, solve them. Students will be able to develop, test, and evaluate rival hypotheses. Students will be able to construct sound arguments and evaluate the arguments of others.

• Information Competency & Technology Literacy
Students will be able to use technology to locate, organize, and evaluate information. They will be able to locate relevant information, judge the reliability of sources, and evaluate the evidence contained in those sources as they construct arguments, make decisions, and solve problems.

• Communication
Students will be able to communicate effectively in diverse situations. They will be able to create, express, and interpret meaning in oral, visual, and written forms. They will also be able to demonstrate quantitative literacy and the ability to use graphical, symbolic, and numerical methods to analyze, organize, and interpret data.

• Self-Development & Global Awareness
Students will be able to develop goals and devise strategies for personal development and well-being. They will be able to demonstrate an understanding of what it means to be an ethical human being and an effective citizen in their awareness of diversity and various cultural viewpoints.

IGETC = Intersegmental General Education Transfer Curriculum  
FALL 2015

IGETC is a guide to choosing your classes that can save you time and money – an even better guide is a Riverside City College counselor who will work with you to develop an education plan. Your personalized plan will include general education course choices and the courses you’ll need to prepare for your major at your chosen university. In some cases, you can use one course to count for two requirements, saving you time and money.

RCCD General Education Program Student Learning Outcomes

The RCCD General Education program prepares students to be able to demonstrate an understanding of how knowledge is discovered and constructed in the natural sciences, the social and behavioral sciences, the humanities, and language and rationality. Students will understand the methods of inquiry that underlie the search for knowledge in these fields. In addition, they will gain demonstrable skills in four broad interdisciplinary areas:

Critical Thinking
Students will be able to demonstrate higher-order thinking skills about issues, problems, and explanations for which multiple solutions are possible. Students will be able to explore problems and, where possible, solve them. Students will be able to develop, test, and evaluate rival hypotheses. Students will be able to construct sound arguments and evaluate the arguments of others.

Information Competency & Technology Literacy
Students will be able to use technology to locate, organize, and evaluate information. They will be able to locate relevant information, judge the reliability of sources, and evaluate the evidence contained in those sources as they construct arguments, make decisions, and solve problems.

Communication
Students will be able to communicate effectively in diverse situations. They will be able to create, express, and interpret meaning in oral, visual, and written forms. They will also be able to demonstrate quantitative literacy and the ability to use graphical, symbolic, and numerical methods to analyze, organize, and interpret data.

Self-Development & Global Awareness
Students will be able to develop goals and devise strategies for personal development and well-being. They will be able to demonstrate an understanding of what it means to be an ethical human being and an effective citizen in their awareness of diversity and various cultural viewpoints.

Fall 2015
Final Examination Schedule

- Failure to report for scheduled final examinations may result in a failing grade for the course. In case of illness or other emergency, the student must report to the instructor's office or department prior to the beginning of the examination.
- Final examinations for evening (4:30PM and later) and Saturday and Sunday classes will be held at the time and place of the regular class meeting on the following dates:

<table>
<thead>
<tr>
<th>Monday, December 14</th>
<th>Tuesday, December 15</th>
<th>Wednesday, December 16</th>
<th>Thursday, December 17</th>
</tr>
</thead>
<tbody>
<tr>
<td>Friday, December 11</td>
<td>Saturday, December 12</td>
<td>Sunday, December 13</td>
<td></td>
</tr>
</tbody>
</table>

- Classes meeting two nights per week will not meet the first meeting and shall use the second meeting for the final exam.
- Final Examination Schedules are specific to each college, and are to be used to determine the final examination dates for classes that are held only at that college.
- Final examination for classes shorter than a full semester will be held on the last class meeting date.
- The chart below details the final examination schedule for full-semester weekday classes. Choose the block that most closely matches the time and day the class meets, and that does not result in a conflict with other classes that are also scheduled within that same block. The date of the final examination will occasionally be scheduled on a day that the class does not normally meet. Note the start time and arrive promptly.

Moreno Valley College
Dental Hygiene

The Moreno Valley College Dental Hygiene program offers state-of-the-art equipment and provides an environment that supports patient-centered preventive treatment. MVC is proud to have a 100% pass rate on both the National Dental Hygiene and the California State Licensing Board Examinations in 2012 and 2013.

Information sessions, which are limited to 30, are held at the Dental Education Center. It is recommended that interested participants call (951) 571-5431 to reserve a seat at the information sessions. The costs of the program and important deadlines will be discussed.
